...dedicated to the Fanatical
Warrior Poet Priests of
Christendom

When in the course of human events, it becomes necessary for ONE people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the laws of nature and nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to separation.

We, therefore, representatives of the United Freaks of Christendom, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by Authority of the good People of the Realm, solemnly publish and declare, That these United Freaks are, and of Right ought to be Free and Independent States; that they are absolved from all Allegiance to any Crown save that of Christ God, and that all political connection between them and the unelected self appointed international criminal syndicates of foreign hostile imposters, is and ought to be totally dissolved; and that as Free and Independent States and Nations, have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may right of do.

And for the support of this Declaration, with a firm reliance on the protection of divine Providence, we mutually pledge to each other our Lives, our Fortunes and our Sacred Honor

The Shame propounded upon the west by the institution of Slavery has been mobilized in forms of new and hideous Institutions of weaponized Guilt, organized self hatred, & slander charges of racist and imperial persecution.

This DeathWish cult of natural, national, and cultural suicide inflicted upon our Christian civilization, the first in the world to formally abolish Slavery where it was never popular nor widely practiced, is not a naturally occurring phenomena. It's roots can easily be traced back to the same multinational financial interests involved wholesale in perpetuating and profiteering from the most brutal industrial Modern organized Slavery in history, presently, even now in the second decade of the 21st century. Not theoretic or academic, but clear cut easily identifiable textbook examples of all forms of the worst kinds of Slavery. The profiteers and engineers too, clear cut and easily identifiable.

From drug trafficking child soldiers who kidnap Slaves for sex and labor in the Red army dominated lithium and rare earth mines of Africa, the raw material of the digital "smart" economy, to Gulag forced labor in Red army death camps where these slave goods are assembled by imprisoned Christians, Muslims, Buddhist, and all manner of alleged political dissidents held without trial, worked to death awaiting execution, all the way back to the refugee and migrant caravans invading our borders... there is but one culprit.

Upon these blood stained pillars by the continued existence of Slavery, in all its unimaginable horror laden infamy, these inhuman pirates have established their "Free Trade". For nothing in life is free. Except the life without value, and labor without cost, in the miserable existence of Slaves.

And it is these Titans of so called "Free Trade," colossal extranational private financial monopolies, who in their own Greed and private self interest, shift the Guilt of their sins and Shame of their crimes onto the victims of their trade. A powerless consumer class deprived of their Christian ideals of free will, expressed in the founding of a Fair & Open Free Market, by all manner of freedoms of choice, dissolved by colossal criminal monopolies of Slavery, the "Free Trade", and demanded immolation for sins as old as man, committed against their own Christian civilization.

This malign DeathWish cult is therefore a deliberate attack by the actual factual perpetrators of contemporary Slavery, the so called "Free Trade," against our Christian civilization and the Christian ideals of free choice and free will. Our civilization IS Christian, founded on Christian principles. No honest person can debate this fact. From the zenith of Renaissance thought, the scientific method, was born Religious Freedom, The Age of Enlightenment, epitomized in the founding of America, and declaration of its social contract the US constitution. Founded in bitter opposition to Tyranny and religious persecution.

Alas, this same Tyranny has again raised its ugly head. The Religious Freedom our civilization is founded upon is under attack world wide.

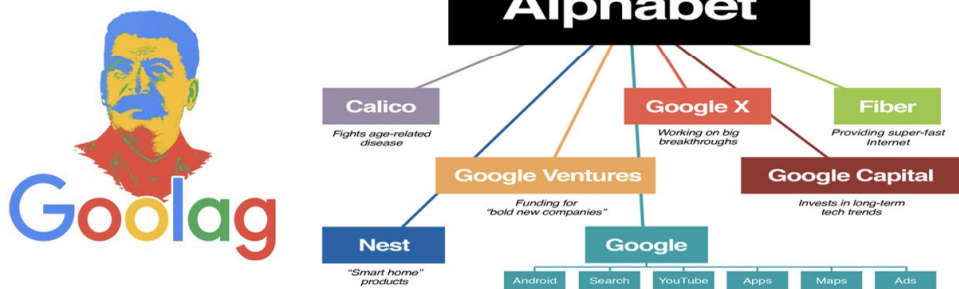

Atheism is the religious system of beliefs which denies God and Christ. A-theism or anti-theism is literally the denial of deity. It is anti Christian. You cannot deny Christ and proclaim yourself not to be against Him. Atheism is by definition the belief not in praising, but denying God and Deity. This anti Christian religion is given preference in every walk of life, from public school and University, to the highest public office of state, denying all Freedom of expression for Religious Freedom that our separation of church and state exists to protect. Separation of Church and state exists to deny exactly this kind of preference. Rather than protect every individual to express his Right to Religious Freedom, this mechanism of separation has been twisted in precisely the opposite fashion. To mandate atheism in all our public institutions, over and above all others Right to Free Expression and Religious Freedom.

This is the same atheist religion which inspired unimaginable Horror, in Revolution after bloody Revolution, by the slaughter of untold millions starved to death, tortured, and executed without trial. Which destroyed churches, burned priests in the streets, and tortured innocent civilians that fill the unmarked mass graves from Russia to Spain and far away as China. In the holodomor and red terror of white Christians Europe, the mortist Great Leap Forward in China, through the present day color revolution and genocide of Christians, Muslims, and Buddhist world wide.

It is no surprise then that it is precisely this same blood cult criminal gang of atheist Tyrants who deliberately attempt to dissolve our Christian Fair and Open Free Market for the institution of "Free Trade," perpetrating all kinds of the worst forms of Slavery including the industrial rape and devastation of the ecology, who encourage the Deathwish and cultural suicide by Guilt over the shame of Slavery. The institution they are proven to profit by and perpetuate, presently and historically, onto the captive nations of Christendom. In genocide and Holy War. That most people will never even have heard about.

What is Natural Order?

Christian civilization is founded on Natural Law. The pact between God and man outlined in the constitution by social contract, of God given Rights & Duties, meaning only God may take them away, declared in the founding of the state. Existing by consent of the governed, the individual peoples of the public state, for safeguarding the God given Rights and Duties thereof. The state is thus given existence as public expression of the individual will of it's people, the covenant between God and man.,

Christ says "the kingdom of Heaven is within you. None shall enter except through me." As supreme master of his own destiny, man is subject only to the authority and final judgement of his God. The kingdom of Heaven is not of this world. It is personal. Individual. Only to be found within. It is not the private luxury of kings, courts, priests, banks, or generals to dole out as favor to the faithful. Every man is free to seek his own salvation. This is the true foundation of Christian civilization. Religious Freedom, as epitomized in the Age of Enlightenment, by free will. It's expression, found in the Fair & Open Free Market, by all manner of freedoms of choice. The Christian ideal that every man is sovereign unto God, supreme master of his own Destiny, and final arbiter of his own individual free choice.

For this reason are the states and nations of Christendom declared into being. To protect and guaranty the God given Rights and Duties of the individual to life liberty and the pursuit of private property in accord with Natural Order, the covenant between God and man declared in founding of the public state. Existing by consent of the governed, only to protect and guaranty the Rights and Duties of it's individual peoples, as public expression of their individual will.

The atheist Tyrants who wage war against us do so using our very own state and Natural Order against us. The atheist, by seeking to usurp the public state, inserts themselves between God and man as supreme master of his own destiny. To subject man to the authority and final judgement of the state, rather than that of God. Depriving man of his free will. The tyrants by seeking to subvert the Natural Order, secure for the state the individual Rights of it's people to life, liberty, and pursuit of private property, and thus shatter into anarchy the singular purpose of the state as public expression of the individual will of it's people. An army of capital is then raised infinite divisions of private interests claiming to serve the new Rights of the public. Rights upon which the public state was declared to exist, in order to protect and guaranty. For the individual.

It's in our face. The "human" Rights of the UN are the same as the Soviet Union, that served as it's model . You are free to do what they tell you

The dialectic of capitalism versus communism is the deliberate dismantling of the natural order through subverting and usurping the state from public expression of the will of it's individual peoples, into a private instrument for serving the public masses, which the state is itself an expression. Both seek to destroy the Natural Order of Christian civilization by usurping the inalienable God given Rights & Duties of the individual, in social contract between God and man in declaring the foundation of a public state, and usurping those Rights for its own public interests. Which it ruthlessly pursues over the Rights of it's individual peoples that declared in it's founding it exists solely to protect and guaranty. Where the capitalist captured state crumbles to anarchy, eroded by the private army of capital in infinite divisions of trusts, foundations, and agency under the flag of (nonexistent) public interests, The atheist Communist forces simply insert themselves between God and man as supreme master of his destiny. Seeking to overthrow God and subject man to the monarchy by final judgement of the usurpers state, as arbiter of His Rights, rather than that of God. This is the true aim of those who seek to overthrow God. To usurp His judgement and final authority and subvert the Rights and Duties endowed by God for man, to the state. To Rule the will and Destiny of it's people.

Democracy- The weak and tired “public” masses of multinational multiculturalism.
“Free Trade” they are your voice now

What about Democracy?

Man is individual. He is not public. The public is that which belongs to everyone. The state is public, as an expression of the individual will of it's people. The people, man, all peoples, are always individual. To serve the people is to serve the people. To serve the public, is to serve the state. The modern and most common form of privateer masquerading as public servant and expression of public interest, is that of majority. The status quo. Mob mentality, what is often incorrectly attributed to Fascism, is in fact the majority rules plutocratic tradition of Ancient Greece. Democracy. The will of the Masses. Majority, or mob rule, is the absolute left of an-archy, lawlessness, in dialectic opposite to the absolute right of mon-archy, or one law, of kings.

The natural order of Christian civilization has balanced these two opposing forces to guaranty the greatest amount of liberty to the greatest number of people. The infamous masses, anarchy, represented by it's individual peoples in covenant with and subject only to the divine authority of God, monarchy, establish Natural Order by social contract declared in the founding of the public state. A public expression of the will of it's peoples, sovereign individuals with free choice and equal inalienable rights and duties endowed by God in social contract of Natural Order.

The infernal Trinity
The A=C that won the world for socialism.

But Socialism!

Socialism is famous for propounding the same preposterous lie of Capitalism and Communism. It is in fact their union. Loudly proclaiming the public is the people! And entitled to the same Rights. That the individual must serve the public to serve the people. It is derived from the illogical fallacy demonstrated by A=C. "The state is public, and comprised of individuals, therefore to serve the state is to serve the individual!" Or in other words, "bread is food, and food cost money, therefore bread is money!" But you just try and pay your taxes with it!

To serve the public is to serve the state. And by proclaiming to serve the public, the socialist are no longer beholden to the people. Spinning the lie that the more power you feed into the state the more power they have to dispense with for the taking care of individual peoples. In essence, demands the surrender of your Rights to the state. For sake keeping. But no matter how good intentioned, demonstrated in every nation to experiment with socialism, the more power surrendered to the state, the less power is in the hands of the people that the state is declared to exist for in the first place. But there is no doubt the state exists to serve it's people, which is what makes socialism so attractive to those who don't understand Natural Order

Democratic Socialism!?

Nobody will deny that the public state has an obligation to serve its people. Both democracy and socialism are useful tools when relegated to their own respective spheres, but mixing the two is like putting gasoline in a kerosene lamp. A useful tool for navigating in the dark, becomes a ticking time bomb, and potentially fatal. The state exists to help man help himself. It is not the job of the state, nor is it within their power, to care for the private interests of its peoples. The Natural Order inherent in Christian civilization has already accounted for the socialist's need to care for the weak and the vulnerable masses within society. The "common good" of the masses, is already declared in the founding of the public state. To protect and guarantee the God-given Rights of its people as sovereign individuals with free will and freedom of choice as expressed in the creation of the Fair and Open Free Market. What is public, the state, is owned by all, and must be Open or accountable for their action. What is private, man, has Rights and Duties endowed by God, inalienable, as outlined in the social contract and declared in the founding of the public state. The socialist democrat and democratic socialist preach the concept of the masses that they are forced to appeal to as embodying the "public". Insinuating the people are the public, and must be taken care of. This is a joke on you. Because what is public is public property, and belongs to everybody, thereby inferring people are only property. Another material good to be traded on the "open" market. The reality is man is individual. The state is public. Belonging to everybody, the state has no property, as it has no Rights. The state does not serve the public, the state IS the public. As public expression of the will of its individual peoples. To proclaim Rights of its own, the state serves only to subvert the Natural Order and usurp the position of God in social contract. As dispensation of the Rights and Duties of its people, as privilege, and favor to the faithful. For the benefit of the "common good". Thus the infinite divisions of trusts, foundations and alphabet agencies are established for serving this weak and vulnerable "public". The socialist democracy of democratic socialists captured state. Rather than the people, the actual masses, the state is declared to exist in order to serve. Where public libraries, hospitals, and universities become private charitable donations, and thus not public or accountable at all. Using the capitalist engines of commerce to break off every lever of power intended for upholding Natural Order, the infinite divisions of new instruments for public service are leveraged AGAINST their competition in commerce. The people. The only interest democratic socialists show for the masses they claim to serve is the mob mentality of public opinion they depend on occasionally for votes.

The Dirty Word

The highest authority in the socialists democracy of democratic socialists is the blind frenzied will of the masses utilized for votes in appointment to public office. Public opinion which in the digital age of mass media can be manipulated with the push of a button. Their authority comes from the Mob mentality majority Rules defining character of democracy, often wrongly attributed to Fascism. Fascism is simply an economic system which subjects commerce, the right to private property, to the authority of the public state.

Ensuring no private interests can monopolize industry to imitate public interests, infringe on the Rights of all to compete in the Fair and Open Free Market. Fascism is a dirty word in the realm of mass media and public opinion precisely because it is the only economic system that has successfully stopped cold the atheist Tyrants system of subverting Natural Order in usurping the public states of Christendom. Unlike socialism, which still organizes capital by labor, dividing it's individual peoples into infinite classes and sets of competing interests, Fascism organizes labor by capital, and divides industry, rather than people, into a system of Guilds called corporations. Also called the corporate economy. But unlike the socialist capitalist system where corporations make a monopoly of all industry, to keep out competition and divide the people, the Guilds or corporations of Fascism cannot be said to own anything, because they are simply a regulatory body and part of the public state. And obeying the Natural Order, Fascism disallows the public from the Divine Rights to Life, Liberty, or Private Property. Fascism still allows for big business to operate, and to make a profit, but only so far as they do not infringe on the Rights of everyone to a Fair and Open Free Market. But where Fascism exceeds in economics, the governing body has fallen to the same pit falls as all other Christian nations after the second World War that won the world for socialism. The false dialectic of capitalism versus communism. Having become another instrument of atheist Tyranny, masquerading as Socialist Democracy. The very institution they fought in the war to extinguish. As an economic system Fascism best adheres to the Natural Order our Christian civilization is founded upon. Ideals of individual sovereignty, Free will, and freedom of choice. But unlike the platitudes of socialism for equality and brotherly love, to surrender your individual Rights for the "common good" of the public (the state), Natural Order attains the real Natural Socialism of Christian civilization in that the "common good" is not subject to the public opinion of any masses or majority, but only the inalienable God given Rights outlined in social contract of the public state. Natural Socialism already exists as the foundation of Natural Order.

Histeria Mysterian

The last Great War won the world for socialism. World War 1 ended the 1200 year reign of the Christian kings of Europe. And WWII was the war to establish Communism. Founded by the Bank of England and funded by their lackeys on Wall Street, the Russian backwater was chosen for the Petri dish because of the historical hatred of the atheist for the Christian Czar. The same Christian Czar who founded the original world peace headquarters at The Hague. And now www or World War 3 is the war to wipe away Christianity forever. And establish a one world socialist kingdom of atheist Tyranny over every nation and culture on earth. Thus the Trotskyite war powers in the socialist captured state of America aggravated the hornets nest by allowing 9/11 the same way they allowed Pearl Harbor, to justify an invasion and bulldozing of the birthplace of Christianity, The Middle East.

The greatest libraries of the origins of human histories were in Iraq. Looted. Lost to history forever, a wealth of human knowledge greater than the Louvre in Paris. The largest statue of Buddha too, in Afghanistan, reduced to dust by the ISIS fighters. An atheist kgb cia mi6 joint effort of trained insurgents, the bogeyman shadow enemy needed to justify a conflict. For the socialist UN sanctioned Horror that lacked even the most basic legal precedent of congressional approval. What started out as a man hunt for an estranged business partner of the bush clan, osama bin corona, became the meaningless police action to spread the socialist holy doctrine of "democracy" and progress. That beautiful word which stands for all that is in the hearts of man, but in reality, actually means very little outside the Mob mentality of "public" opinion it supposedly represents. The double decades long conflict has also served to rub the nose of America in the dirt and trash her reputation on the world stage as the beacon for freedom worldwide. The epitome of Religious Freedom, where any man may seek his own salvation.

Which brings us to where we all stand now. The precipice of annihilation and ushering in of the most vile barbaric anti Christian anti human Tyranny to ever be conceived in the dark hearts of men. The true guiding spirit of Liberalism, the religion of isms, is the socialists concept of democracy. Not as the useful tool for choosing representation in citizen appointed public office. The distinguishing character of excellence that separates the wheat from the tares. But democracy as the vague A=C fallacy of socialism. Which proclaims "the state is public and comprised of individuals, therefore to serve the state is to serve the individual." The self serving greed and degradation of the masses, subject to the (nonexistent) Rights of a private state. Slavery

Capcom A Game

Socialism is nothing more than the carefully stage managed conflict between capitalism and communism. A hollywierd side show where two sides of the same coin, go out in symbolic combat for the destiny of the world. One side, the capitalist, the pseudo "conservatives" cannot let go that their individual freedoms no longer belong to them. And cluelessly defend the captured state, usurped by atheist communists, the new leasor of their individual Rights. The communist, socialist democrats of the socialists democracy, ruthlessly defend democracy and the tired huddled weak and vulnerable masses, the public, without ever realizing the "public" is the state. And in proclaiming to serve the "public" their socialist shepards have sold out their flock, to serve the the state. Represented by the infinite trusts, foundations, and alphabet agencies of private CAPITALISTS, that imitate the public interests they claim to represent. Colossal criminal monopolies at the cutting edge of the Modern Slave Trade. World socialism divides the people across these line to do dubious battle for the fate of the world already in their hands. Keeping people divided into infinite classes of competing interests, bickering for the crumbs of their "Free Trade" as they colonize the Planet.

These atheist tyrants behind the barbarous continued existence of Slavery by "free trade," who subvert Natural Order to usurp the public state, get away with their crimes because they are cowards. By plausible deniability, totalitarian censorship, the anarchy of capitalism disguised by infinite trusts and agency where there can be no accountability, and enforcement of mandatory atheism on all peoples of the world, inserting themselves between God and man in social contract to revoke his Rights and Duties. Who shift the sins of their crimes onto the victims of their trade, going so far as to imitate the likeness of their victims to perpetrate their crime, most often disguised as the state, the public expression of the people themselves. To conceal the perpetrator and make the state a scapegoat to take the fall. So that man grows to despise the only instrument he has at his disposal to protect and guaranty his Rights and Duties. The public state. The victim unable to bear the burden of this self imposed guilt suppresses it, which boils and festers until it is expressed by a Deathwish cult of national and natural suicide and victim blaming. Keeping the victim subdued and on the defensive, while the host burns up in rage. Seeking the extinction or the rapture the parasite is to eager to provide. From spiritual degradation to the utter collapse of our ecology, subjecting the entire planet to their religion of denial of Deity. To reduce man to beast. Wielding the oxymoron of multiculturalism to eradicate all culture, individual nations, and ethnicities alike for an amorphous godless sexless culture-less masses. It isn't atheism. It's Luciferian

Natural Socialism

The “public” spending necessary to sustain the golem creation of a godless sexless multicultural “public” masses which the new world religion of liberalism proclaims to serve, has sheared the peoples of their wealth, their rights, and even their own individual cultures. Printing money out of thin air, the individual peoples under their power becomes infinitely indebted to this cult. And every monumental failure caused by reckless state spending, is used to justify the next round in an endless cycle. Liberalism, globalism, has failed. And it’s failure has become it’s own justification. The bigger the failure, the more spending is deemed necessary to “correct” it. Failure is now big business

First we must make our people aware of the curse inflicted upon them. Once aware the people must rediscover the Natural Order that is the guiding light and fountain head of all Christian states, expressed in our Fair and Open Free Market, with all manner of freedoms of choice, the epitome of free will and the sovereignty of man the individual as supreme master of his own destiny. This is not the first time the peoples of Christendom have come under attack. Every Age of Enlightenment and Reason through recorded history has always sprung from Religious Freedom expressed again and again by a period of Renaissance, meaning rebirth, as the people cast off their curse and establish Natural Order. The remedies for all the ills we find in contemporary civilization are already present and accounted for in the social contract or constitution declared in the founding of our Christian states. As all contain the kernel of Natural Order in the covenant between God and man in the social contract outlined in the founding of that public state.

Not one traitor has been executed for TREASON by any of our states or nations since 1953. Not because they do not exist, but because that was the year the traitors took full control. The amendments to the American Bill of Rights is an excellent example of the progress towards socialism. Where crisis after crisis are utilized deliberately to generate fear and panic in the masses.

To convince man to vote against his own better interests, and accept legislation that violates all the most fundamental principles and basic law for upholding the Natural Order in social contract. Corona is just the next crisis in the next step towards the ultimate end. Upon this genocide and Holy War we declare to legally lawfully and peacefully Call to Order motions to restore Natural Order through forming a public Coalition of Natural Socialists, in accordance with the Natural Order declared in the founding of the public states of Christendom.
